MARK SCHEME for the May/June 2011 question paper
for the guidance of teachers

0470 HISTORY

0470/13

Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

1 Use of the Mark Scheme

- 1.1 It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- 1.2 Marking must be positive. Marks must not be deducted for inaccurate or irrelevant answers. Half- marks must not be used.
- 1.3 The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response.
- 1.4 Be consistent from script to script and from batch to batch.
- 1.5 Indicate that all answers have been seen.
- 1.6 Do not transfer marks from one part of a question to another.
- 1.7 If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- 1.8 Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- 1.9 **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.**
- 1.10 Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

2 Marking

- 2.1 All marking should be in red.
- 2.2 The level, and mark awarded for each part question, **MUST** be shown clearly in the margin of the script towards the end of an answer, e.g. L3/8.
- 2.3 At the end of each question the total mark achieved by the candidate for that question **MUST** be indicated in a circle.
- 2.4 The total mark for each question should be transferred to the front page of the script. The marks for the three questions should be totalled and indicated. The final total for the script should then be circled.
- 2.6 It is not necessary to tick the body of an answer and examiners should refrain from doing so.
- 2.7 Examiners must indicate, in the body of the response, where a level has been achieved and, where appropriate, marks are gained.

3 Assessment Objectives

- 3.1 The Assessment Objectives being tested in each part of a question are:
- (a) recall, description
 - (b) recall, explanation
 - (c) recall, explanation and analysis.

'Britain and France were left as the dominant powers in the League. The War and later Depression meant that these countries were tired and lacked the resolve to see through some of the large crises.'

'Without Germany and Russia in the League at the start meant that huge areas of Europe and Asia were not covered by the authority of the League.' 'For collective security to work effectively all major countries were needed in the League all of the time. It was an organisation of some nations not all nations.'

e.g. 'In 1956, there were demonstrations against food prices in Poland. The Polish government was unable to keep control and, therefore, Soviet troops were sent to restore order.'

'After Khrushchev's bitter attack on Stalin's treatment of the USSR's communist neighbours and the reforms he allowed in Poland, there was hope in Hungary for greater freedom. Nagy hoped to withdraw Hungary from the Warsaw Pact. 200,000 Soviet troops and 2500 tanks arrived in Budapest and crushed the rebellion.'

'Between 1930 and 1932, Hitler exploited the government's problems by holding huge rallies at which he promised to restore Germany's economy, such as by huge employment schemes and destroying the Treaty of Versailles. This enabled the Nazi Party to win 230 seats in July 1932, becoming the largest party in the Reichstag.'

'Between 1930 and 1932, no one party had enough support to form a strong government and Hindenburg ruled by decree. He appointed his own chancellors. Brüning, von Papen and Schleicher all failed to cope with the crisis and they could not command a majority in the Reichstag. None of them had the ability of the deceased Stresemann.'

 'Persecution of Jews was religious in that many blamed them for the death of Jesus Christ, although this was not a strong factor with the Nazis.'

The market soon became saturated as Americans had all the consumer goods they needed and the demand for these items fell. Factories cut back production which meant reduced workforces and fewer people to buy consumer goods. As a result, share prices started to drop.'
