International General Certificate of Secondary Education

**MARK SCHEME for the May/June 2010 question paper**  
**for the guidance of teachers**

**0470 HISTORY**

**0470/42**

Paper 42 (Alternative to Coursework),  
maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

### Depth Study G: The Creation of Modern Industrial Society.

- 7 (a) (i) Level 1 – Repeats material stated in the source, no inference made. (1–2)
- Level 2 – Makes valid inferences, unsupported from the source e.g. House building is driven by profit and greed with little thought given to health or the people who will have to live in the houses etc. (3–4)
- Level 3 – Makes valid inferences with reference to the source e.g. Carpenter and builder buy up building sites and cover them with so-called houses; no thought about the people who live in them, ventilation or drainage; creates overcrowding with many families to a room etc. (5–6)
- (ii) Level 1 – Agrees OR disagrees, unsupported from the sources. (1–2)
- Level 2 – Agrees OR disagrees, supported from the sources e.g.
- Yes **C** – The fact that a leader of a local community feels the need to write about and publicise the poor conditions means that some take it seriously etc. **B** – Many bodies at different times have passed 29 measures.
- No **C** – The fact that a book has to be written about conditions means that many have not taken the problems very seriously; all the description indicates that there has been little planning and little action to remedy or consider problems etc. **B** – Many measures by different bodies with different objectives, at different times indicate an uncoordinated approach to the problems. (3–5)
- Level 3 – Agrees AND disagrees, supported from the sources. Addresses the issue of 'How far?' (6–7)
- (iii) Level 1 – Useful/not useful – Choice made on the basis that one is more detailed/gives more information than the others, but does not specify what information. (1)
- Level 2 – Useful/not useful – A is a description from 1848, B is from a newspaper and C is from a book by a churchman, so they could all be biased/unreliable. (2)
- Level 3 – Choice made on the nature or amount of information given. Must specify what information. (3–5)
- Level 4 – Choice made on the grounds of reliability.  
Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross reference between A, B and C to show reliability.  
6 marks for one source, 7 marks for more than one source. (6–7)

- (b) (i) Level 1 – One mark for each valid example to a maximum of two e.g. Expect examples of northern industrial towns like Liverpool, Leeds, Manchester, Sheffield etc. (1–2)
- (ii) Level 1 – Identifies sources and ways e.g. Water taken from and sewage emptied into rivers. (1–2)
- Level 2 – Describes source and ways. Award an extra mark for each valid source and way described in additional detail e.g. **Water** – came mainly from wells, pumps, springs and rivers. Some houses had piped water but the origin could still be as afore-mentioned. **Sewage** – Drainage channels or gutters leading to river or stream; cesspits, serving a number of dwellings, emptied at intervals; dungheaps where all dwellings in locality dumped waste – removed at intervals. Proper sewers built usually in later part of the century. **One aspect only – max 3 marks.** (2–4)
- (iii) Level 1 – Single reason. One for the reason, one for the explanation. (1–2)
- Level 2 – Multiple reasons. One for each reason, one for each reason explained e.g. Impure water supplies – supply contaminated by faecal discharge. Little idea of what the disease was or how it was spread. Densely populated areas aided spread; large-scale outbreaks usually started in ports where it arrived from cholera hotspots of Europe or the East. Interaction of poor public health, overcrowding and ignorance. (2–6)
- (iv) Level 1 – Simple assertions.  
Yes, things got better when proper sewers were built. (1)
- Level 2 – Explanation of improvement OR lack of improvement, single factor given e.g.
- Imp The amount of legislation post-1840s shows increasing awareness; also increasingly effective measures. The fear of cholera and other diseases helped to arouse public and official consciences, although there was opposition to regulation. There was a dismissive attitude towards the poor, especially immigrants, and so efforts to improve public health were seen as a waste of money.
- Lack There were still epidemics in the last quarter of the century so the problems persisted with bad housing a verifiable cause; deteriorating houses created a large 'slum' problem in many cities and health deteriorated despite measures. Average life expectancy was rising at the end of the century and infant mortality decreasing. (2)
- Level 3 – Explanation of improvement OR lack of improvement with multiple factors given. Allow single factors with multiple reasons.
- OR** Undeveloped suggestions on BOTH sides of the argument (annotate BBB – Balanced but Brief). (3–5)
- Level 4 – Answers that offer a balanced argument.  
BOTH sides of improvement AND lack of improvement must be addressed. (6–8)

**Depth Study H: The Impact of Western Imperialism in the Nineteenth Century.**

- 8 (a) (i)** Level 1 – Repeats material stated in the source, no inference made. (1–2)
- Level 2 – Makes valid inferences, unsupported from the source e.g. English people would be very privileged and pampered; an easy life etc. (3–4)
- Level 3 – Makes valid inferences with reference to the source e.g. The young man has to do little for himself, just sitting in his dressing gown and being readied for the day by many servants; surrounded by luxury, pets and the trappings of wealth – clothes, decorations etc. (5–6)
- (ii)** Level 1 – Agrees OR disagrees, unsupported from the source. (1–2)
- Level 2 – Agrees OR disagrees, supported from the source e.g.
- Yes Dalhousie had not foreseen problems, so lack of his foresight is a factor; discontent at westernisation policies of the previous 30 years; reforms threatened traditional Hindu and Muslim ways of life; lapse and annexation; suppression of religious practices.
- No A mutiny of the Bengal native army; Christian missions recruiting; Western education. Implies more of a general and overall threat from westernisation than specific Dalhousie reforms. (3–5)
- Level 3 – Agrees AND disagrees, supported from the source. Addresses the issue of 'How far?' (6–7)
- (iii)** Level 1 – Useful/not useful – Choice made on the basis that one is more detailed/gives more information, but does not specify what information. (1)
- Level 2 – Useful/not useful – One is a drawing and the other is from a British history book so they may both be biased/unreliable. (2)
- Level 3 – Choice made on the nature or amount of information given. Must specify what information. (3–5)
- Level 4 – Choice made on the grounds of reliability.  
Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross-reference between A and B to show reliability.  
6 marks for one source, 7 marks for both. (6–7)

- (b) (i)** Level 1 – One mark for each valid detail to a maximum of two e.g. A brotherhood of religious fanatics whose cult was murder for its own sake, usually of casual acquaintances who had given no offence. (1–2)
- (ii)** Level 1 – Identifies benefits. Communications, education and religion. (1–2)
- Level 2 – Describes benefits. Award an extra mark for each benefit described in additional detail e.g. Road and railway building. Telegraph. Education opened up prospects for Indians to enter the Civil Service. The end to practices like suttee and infanticide. (2–4)
- (iii)** Level 1 – Single reason. One for the reason, one for the explanation. (1–2)
- Level 2 – Multiple reasons. One for each reason, one for each reason explained e.g. Issue of greased cartridges – pig and cow fat – offending both Hindu and Muslim faiths (but much of this was rumour and the cartridges were quickly withdrawn). Harsh treatment given to sepoy in the spring of 1857. Fewer white officers and often of lesser calibre than earlier ones led to a breakdown in trust between sepoy and officers. Some regiments infiltrated by agitators who saw that their religious and political aims needed sepoy support. (2–6)
- (iv)** Level 1 – Simple assertions.  
Yes, the East India Company had to go. (1)
- Level 2 – Explanation of change OR lack of change, single factors given e.g.
- Chan. EIC disbanded to make way for control by British Government with a separate department and Minister for India, and a resident Viceroy in India representing the Queen Emperor. Changes in formal management and treatment of Indians in areas. Advances in Civil Service and recognition later of Indian political parties and aspirations.
- Lack For most ordinary Indians life carried on as normal but there was now another educated class of Indians carrying out much local management. Britain's industrial revolution still continued to undermine textiles in India and grinding poverty continued for many. (2)
- Level 3 – Explanation of change OR lack of change with multiple factors. Allow single factors with multiple reasons.
- OR** Undeveloped assertions on BOTH sides of the argument (annotate BBB – Balanced but Brief). (3–5)
- Level 4 – Answers that offer a balanced argument.  
BOTH sides of change AND lack of change must be addressed. (6–8)
