## MARK SCHEME for the November 2004 question papers

## 0580/0581 MATHEMATICS

0580/02, 0581/02 Paper 2 (Extended), maximum raw mark 70

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initialy instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published Report on the Examination.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

- CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the November 2004 question papers for most IGCSE and GCE Advanced Level syllabuses.

Grade thresholds taken for Syllabus 0580/0581 (Mathematics) in the November 2004 examination.

|  | maximum | minimum mark required for grade: |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | mark <br> available | A | C | E | F |  |
| Component 2 | 70 | 58 | 36 | 21 | $\mathrm{n} / \mathrm{a}$ |  |

The threshold (minimum mark) for $B$ is set halfway between those for Grades $A$ and $C$. The threshold (minimum mark) for $D$ is set halfway between those for Grades $C$ and $E$. The threshold (minimum mark) for G is set as many marks below the F threshold as the $E$ threshold is above it.
Grade A* does not exist at the level of an individual component.

## TYPES OF MARK

Most of the marks (those without prefixes, and ' B ' marks) are given for accurate results, drawings or statements.

- M marks are given for a correct method.
- B marks are given for a correct statement or step.
- A marks are given for an accurate answer following a correct method.

## ABBREVIATIONS

a.r.t. Anything rounding to
b.o.d. Benefit of the doubt has been given to the candidate
c.a.o. Correct answer only (i.e. no 'follow through')
e.e.o. Each error or omission
f.t Follow Through
o.e. Or equivalent

SC Special case
s.o.i. Seen or implied
ww Without working
www Without wrong working Work followed through after an error: no further error made

November 2004

## INTERNATIONAL GCSE

## MARK SCHEME

## MAXIMUM MARK: 70

## SYLLABUS/COMPONENT: 0580/02, 0581/02

MATHEMATICS
Paper 2 (Extended)

| Page 1 | Mark Scheme | Syllabus | Paper |
