MARK SCHEME for the May/June 2015 series

0610 BIOLOGY

0610/22

Paper 2 (Core Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2015 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

Abbreviations used in the Mark Scheme

separates marking points

reject

separates alternatives within a marking point

mark as if this material was not present

accept (a less than ideal answer which should be marked correct)

indicates the maximum number of marks that can be awarded

the second mark may be given even if the first mark is wrong

alternative wording (accept other ways of expressing the same idea)

words underlined (or grammatical variants of them) must be present

- ignore
- A

•

•

• AW

• ;

1

R

- <u>underline</u>
- max
- mark independently
- ecf
- ()
- ora
- AVP

- credit a correct statement that follows a previous wrong response the word / phrase in brackets is not required, but sets the context
- or reverse argument
- any valid point

Qu	estion	Answers	Marks	Guidance for examiners
1	(a)	(presence of) backbone ;	[1]	ignore vertebrae
	(b) (i)	<u>fish</u> ; <u>reptile</u> ;	[2]	
	(ii)	scaly skin/scales ;	[1]	
			[Total: 4]	
2	(a)	protein ; reactions ; catalysts ;	[3]	
	(b)	break down of large/insoluble (food) molecules ; into small/soluble (water) molecules ; reference to mechanical/chemical process/AW ;	max [2]	
	(c) (i)	(pH) 2 ;	[1]	A 2 or 2.0 R other decimal points
	(ii)	stomach;	[1]	
	(iii)	protein/gelatin; amino acids;	[2]	
	(d)	the colourless area would be produced more quickly/would be bigger, if left for same time period ; it works faster/AW ;	[1]	
			[Total: 10]

Qu	estion	Answers				Marks	Guidance for examiners
3	(a)	nomo	lattar		1		
			letter				
		urethra; G					
		kidney	Α;				
		bladder; E					
		renal artery C;					
		ureter ; D				[5]	
	(b) (i)	liver;				[1]	
	(ii)	(excess) amino acids / proteins ;				[1]	A polypeptides / peptides / peptones
	(iii)	blood plasma	urine				
		more glucose / glucose present	glucose absent	;			
		less urea	ora	;			
		less salts	ora	;			
		less water/more ora ; concentrated urine					
						max [3]	
						[Total: 10]

Question	Answers	Marks	Guidance for examiners
4 (a) (i)	mucus is difficult to move/AW; increased coughing/AW; it will become difficult to breathe/AW; shortage of oxygen/AW; weakness caused by poor respiration/AW; bacteria/microorganisms remain in lungs/AW; infection is possible/AW;	max [2]	
(ii)	fat-digesting enzyme/lipase cannot reach intestine ; fat not broken down/digested ; to fatty acids and/or glycerol ;	max [2]	A fat not emulsified
(b)	an alternative form of a gene ;	[1]	
(c) (i)	Nn ; and Nn ;	[2]	
(ii)	nn ;	[1]	
(iii)	child 1 : Nn or NN ; child 3 : Nn or NN ;	[2]	
(d)	¼ or 25% or 0.25 or 1 in 4 or 1:3 ;	[1]	
		[Total: 11]

Qu	estion	Ansv	wers			Marks	Guidance for examiners
5	(a)	testa/seed coat ; cotyledon/food store ; radicle/young root ;				[3]	
	(b) (i)	prevents drying out ; prevents fungal or bacterial attack on seed contents/AW ; protects/prevents damage (of the seed) ; prevents digestion (by enzymes) inside intestine of animal ;				max [1]	
	(ii)	animal dispersal (idea of) ; fruit / tomato is eaten by animal / sticks to bird's beak ; seeds are not digested inside intestine of animal ; animal moves to new habitat ; undigested seeds pass out in faeces of animal ;			ak ;	max [2]	
	(c) (i)	an in	crease ir	n complexity/AW ;		[1]	
	(ii)	A	NO	water is required for germination/don't have water;			1 mark if YES/NO column correct
		B NO oxygen is required for germination / don't have oxygen ;				1 mark for each correct explanation	
		CYESboth oxygen and water available ;DYESfoil has no effect – light is not required for germination/both oxygen and water available ;					
				max [5]			
						[Total: 12]
