MARKING SCHEME

This Paper is marked out of a maximum of 40 marks. Candidates must choose ONE Depth Study to attempt. Questions and Marking Schemes for each Depth Study have been developed to follow a pattern. In every case, part (a) questions concentrate on source material provided in the Paper and are worth a total of 20 marks. Part (b) questions deal with subject matter closely related to the source material and also have a total value of 20 marks. Whilst marking schemes are based on the same model, they have been printed separately to allow exemplars of skill and information levels which candidates may use. These exemplars are not intended to be exclusive or exhaustive.

All marking should be undertaken in red ink and when a candidate reaches his/her highest Level, that Level should be recorded in the right hand margin of the script (e.g. L2). After this you must decide the mark to be awarded from those available for that Level and record it next to the Level given (e.g. L2/4). Always mark positively and never deduct marks. Ignore errors but indicate you have spotted them by circling. Be prepared to underline key phrases or ideas to help with your evaluation of answers. When in doubt always opt for the higher mark. If candidates attempt more than one question please mark them all but only record the best mark on the front of the script. Write "Rubric Offence" on the front of the script next to the mark given.

If you have any doubts or queries whatsoever please contact your team leader. Please send me your examiner's report towards the end of the marking period but before the last batch date,:
