## MARK SCHEME for the October/November 2010 question paper for the guidance of teachers

## 9700 BIOLOGY

9700/31 Paper 31 (Advanced Practical Skills 1), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

| Page 2 | Mark Scheme: Teachers' version | Syllabus | Paper |

|  | GCE A LEVEL - October/November 2010 | $\mathbf{9 7 0 0}$ | $\mathbf{3 1}$ |

| Question |  |  | Expected Answers | Marks | Additional Guidance |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 1 (a) (i) Prepare the space below and record your results. |  |  |  |  | [6] |
|  | 1. | table with all cells drawn | AND heading (top or left) surface area/ $/ \mathrm{cm}^{2}$ or length $/ \mathrm{mm}$; | [1] |  |
|  | 2. | Reject <br> - if units in body of table <br> - tor T <br> - additional columns details of method |  |  |  |
|  |  | (heading) time with units; |  | [1] |  |
|  | 3. | collects data as times for all four pieces of potato; |  | [1] |  |
|  | 4. | (A) recorded time different from other pieces; |  | [1] |  |
|  | 5. | Reject <br> units must be clear so 1.2 or $1: 2$ must have min and s or secs |  |  |  |
|  |  | records all times correctly as whole seconds or minutes with seconds; UNITS must be clear somewhere |  | [1] |  |
|  | 6. | replicate recorded; |  | [1] |  |

| Page 3 | Mark Scheme: Teachers' version | Syllabus | Paper |
| :---: | :---: | :---: | :---: |
|  | GCE A LEVEL - October/November 2010 | 9700 | 31 |

(ii) Identify two significant sources of error in your investigation.

\begin{tabular}{|c|c|c|c|}
\hline \& \multicolumn{2}{|l|}{Reject temperature} \& <br>
\hline \& Cause of error \& Error \& <br>
\hline 1.
2.

3. \& \begin{tabular}{l}
(dependent) <br>
timing /dropping/distance long pieces of potato ora shorter pieces <br>
(pieces of) potato

 \& 

not accurate/delayed/different; <br>
different height to top there is shorter distance to surface longer distance to surface; <br>
stick to sides/bottom of tube don't sink to bottom;
\end{tabular} \& [max 1] <br>

\hline 4. \& (standardised variables) potato or position in potato or age or storage water left on potato (test)-tubes hydrogen peroxide \& | not same different/variety old; |
| :--- |
| not same/different; |
| not same size/height; |
| concentration changes/decreases evaporates/degenerates/breaksdown; | \& [max 1] <br>

\hline 8. \& (independent variable) lengths/size/surface areas/volumes \& not same different vary; \& [max 1] <br>
\hline
\end{tabular}

max 2 overall

| Page 4 | Mark Scheme: Teachers' version | Syllabus | Paper |

|  | GCE A LEVEL - October/November 2010 | 9700 | 31 |

(iii) Suggest how you would make three improvements to this investigation.

|  | 1. | same potato or position in same age or storage or fresh use micrometer/cork borer/vernier callipers; | [1] |
| :---: | :---: | :---: | :---: |
|  | 2. | use same volume/mass/volume ratio more surface areas/sizes; | [1] |
|  | 3. | use a wider container or smaller potato use deeper container use tubes of same size clamp tubes in vertical position; | [1] |
|  | 4. | method to dry the potato lid to cover hydrogen peroxide; | [1] |
|  | 5. | (collect oxygen) use a gas syringe or water displacement/oxygen sensor; | [1] |
|  | 6. | replicate/repeat; | [1] |

(b) (i) Three of the values in table 1.1 are anomalous. Draw a circle around each of these values.
all three figures circled

MMO decision 1

| pH | time to displace $10 \mathrm{~cm}^{3}$ of water/s |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | trial 1 | trial 2 | trial 3 | trial 4 | trial 5 | mean |
| 5 | 17 | 14 | 16 | 14 | 15 | 15 |
| 6 | 8 | 5 | 15) | 6 | 5 | 6 |
| 7 | 2 | 10 | 3 | 3 | 4 | 3 |
| 8 | 8 | 6 | 6 | (17) | 7 | 7 |
| 9 | 20 | 16 | 17 | 16 | 16 | 17 |

| Page 5 | Mark Scheme: Teachers' version | Syllabus | Paper |
| :---: | :---: | :---: | :---: |
|  | GCE A LEVEL - October/November 2010 | 9700 | 31 |

(ii) Complete table 1.1. by calculating the missing value.

7; Allow 9.
(iii) Plot a graph of the data shown in Table 1.1.

|  | $\bigcirc$ | $x$-axis pH | Reject t | [1] | Must have units |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | AND $y$-axis time/s or seconds; |  |  |
|  | S | Reject awkward scale |  |  | Must use more than half grid in $x$ and $y$. |
|  |  | scale as each pH to 2 cm | AND 5 seconds to 2 cm ; | [1] |  |
|  | P | Reject plotting if scale is awkward if only dots/blobs or blobs in circles <br> Allow cross in circle | intersection of cross must be clear to show plot. <br> NO cross must touch the line for the next square. |  |  |
|  |  | correct plotting using crosses/dots in circle only; |  | [1] |  |
|  | L | straight line through points; error carried forward if scale or plotting incorrect | quality - no thicker than on grid, not feathery for the complete line. <br> joining plots - <br> - ruled lines plot to plot <br> - curve through all plots <br> extrapolation <br> - not beyond $x$ - or $y$-axis | [1] | Reject if any extrapolation |

| Page 6 | Mark Scheme: Teachers' version | Syllabus | Paper |

|  | GCE A LEVEL - October/November 2010 | $\mathbf{9 7 0 0}$ | 31 |

(iv) Explain the relationship between pH and the enzyme catalase shown in the data.

| (in correct context of pH and activity (below 7/acid or above 7/ alkali) <br> effect on) <br> structure of protein/enzyme/active site <br> or bonds | changed/altered/destroyed/no longer complementary <br> broken; | [1] |
| :---: | :---: | :---: |
| (below 7 or above 7) do not accept collision(s)/react <br> fewer ECSs (enzyme substrate complexes) or less/no substrate can bind/combine/attach fit into enzyme/active site; |  | [1] |
| (below 7/above 7) (enzymes) denatured; |  | [1] |

| Page 7 | Mark Scheme: Teachers' version | Syllabus | Paper |
| :---: | :---: | :---: | :---: |
|  | GCE A LEVEL - October/November 2010 | $\mathbf{9 7 0 0}$ | $\mathbf{3 1}$ |

| $2$ | Make a large, high-power drawing to show the details of five of the structures specialised for gas exchange (alveoli). The walls of one alveolus must be touching the walls of at least two other alveoli. Label where gas exchange takes place. |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1. | Reject if drawn over the print of question |  |  | [1] |  |
|  |  | Reject <br> - thick lines <br> - feathery lines <br> - 2 'tails' or overlaps or gaps | AND no shading | AND use most of the space provided; |  |  |
|  |  | clear, sharp, unbroken continuous lines |  |  |  |  |
| ก | 2. | five structures drawn | AND at least 3 structures touching; |  | [1] |  |
|  | 3. | at least three alveoli different shapes/sizes | AND thickness of one wall irregular; |  | [1] |  |
|  | 4. | (walls with) at least 2 cells drawn | AND at least one nucleus drawn; |  | [1] |  |
|  | 5. | Reject <br> - if any label is biologically incorrect e.g. cell wall. <br> - label within drawn area <br> - into centre of alveolus correct label with label line to wall of alveolus; |  |  | [1] |  |

| Page 8 | Mark Scheme: Teachers' version | Syllabus | Paper |

|  | GCE A LEVEL - October/November 2010 | 9700 | 31 |

(ii) Calculate the ratio of the mean thickness of the outer layer of the bronchiole compared to the mean thickness of the wall of the blood vessel shown in Fig. 2.1.

|  | Reject <br> If lines not shown on both bronchiole and blood vessel |  | [1] |  |
| :---: | :---: | :---: | :---: | :---: |
|  | shows one measurement on each of bronchiole and blood vessel; |  |  |  |
|  | Reject <br> If no units <br> If not both same units <br> If metres or converted to metres or micrometres or standard form |  | [1] |  |
|  | (one bronchiole measured) to nearest 0.5 mm | AND mm; |  |  |
|  | shows mean adds measurements | AND shows division by number of measurements; | [1] |  |
|  | Reject <br> - If given as decimal :1 <br> - If smaller to larger num <br> - If include units answer is larger whole num or leaves as fraction; | smaller whole number | [1] | Either must be to lowest common denominator |
