MARK SCHEME for the May/June 2011 question paper

for the guidance of teachers

0610 BIOLOGY

0610/62

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Question	Mark scheme	Guidance / comments
1 (a)		If no table drawn, mark other parts independently if appropriately laid out but if bar chart / histogram MAX 2
	Complete table with cells neatly drawn;	Reject cells not drawn completely / headings outside cells / obviously unruled lines
		Table can be either way round
	Columns or rows headed S1, S2, S3 ;	Accept 0.2%, 0.05%, ?/ unknown if S1 , S2 and S3 are not present in the table
	Column or row headed drops of iodine solution;	Ignore drops alone / iodine without solution Reject if drops appears in the body of the table
	Correct results (22, 6, 11);	Ignore tally without numbers
(b)	0.09% – 0.11%;	Incorrect percentage = 0 If no percentage given Accept S3 (concentration) in between S1 and S2 or S3 (concentration) less than S1 / 0.2% or S3 (concentration) greater than S2 / 0.05%
	Correct use of 11 drops for S3 ;	If 11 drops not mentioned Accept number of drops for S3 = half number for S1 / number of drops for S3 = double number for S2
	Correct reference to drops and concentration (for S1 or S2);	N.B. Can refer to conc. and number of drops separately or together anywhere in answer.
	[Accept as an alternative – calculation of ratio of drops : concentration even if S1 / S2 are not specifically mentioned

	l		IGCSE – May/June	IGCSE – May/June 2011		0610	62		
(c)	Four marks from:								
	Repeat	s / replicates the	original experiment / AW;	Ignore repeat experiment with different conditions					
	Average / mean;								
						t syringe / burette measuring cylind		ette	
	Measu	re volume in cm ³	not drops alone;			re cm ³ with a bure			
	Use a d	colorimeter / white	e card to judge colour / AW;						
	Narrow the range between the concentrations on either side of unknown / increase concentrations between S1 and S2 / AW;					Ignore 'more concentrations' alone			
	Control variables (iodine solution / starch solution / size of tubes); MAX [4]			Ignore temperature, stirring, pH, time Ignore apparatus alone					
(d) (i)	0 – Ori	ientation;			O – ' x ' solutior		ʻ y ' axis – numb	er of drops of iodine	
	A – Axes labels;					cept as minimum general fruit juice		med fruit (juices)	
	S – Sca	ale;			S – col	umns plotted to fi	II greater than h	nalf of grid	
	P – Plo	ts – correct heigh	nts of columns;		P – dec	duct mark for any	incorrect		
	L – Lin	e – neat columns	;		L – rule	er used and colun	nns of equal wid	dth	
				[5]	If line g	raph allow O, A a	and S only MAX	([3]	
(ii)	Blackci	urrant		[1]					
			[Total: 17]					

		Page 4		Mark Scheme: Teachers' version		Paper			
_			IGCSE – May/June 201		0610	62			
2 (a) (i)	O – single	clear lines;			Reject sketched / artistic lines Reject shading				
	S – larger	than photogra	ph;		Neject Shading				
	N – numbe	er of segments	drawn;		Accept 11 / 12 / 13 segments (not including the head)				
	D – detail / markings within at least 3 segments;			Segments must be distinct / discrete / complete					
	A – appen	dages on oppo	osite sides of at least 6 segments;	[5]	Accept even if sketchy	/ or shaded or inc	omplete		
(ii)	Fig 2.1 lar	va = 8.3 +/- 0.	1 cm / 83 +/– 1 mm;						
	Length of I	arva in drawin	g in mm / cm (+/– 1 mm or +/– 0.1 c	m); [2]					
(iii)	correct ma	gnification and	1 X;;	[2]	Accept correct answer Accept correct answer allow correctly rounded Accept X before or aft If answer incorrect (inco then allow max 1 for co length of image (in wor	rs to any number of answers) er magnification / correctly calculated prrect working e.g	decimal places (i.e. 'times' d / no X / units used)

	Į		IGCSE – May/J	June 2011		0610	62	
(b) (i)	/ tubes; <i>Workir</i>	on grid or leaf to s ; ng	show it was used to calculate), (total area of leaf) = 55 to (It must be clear that method of adding squares and parts of squares on the grid to find total area was used. Accept obvious reference to number of squares and parts of squares(covered by leaf or tubes) in working			s used. squares and parts of	
		t calculation to wo / 55 to 60 x 100;	ork out percentage /	[3]	multipli	t the formula in w ed by 100' if equ t error carried for	ation not expres	•
(ii)	_	arks from: eat through palis	ade and spongy mesophyll;		Accept	t leaf blade, igno	re leaf tissue	
	(Midrib too) tough / AW;				Accept	t strong, thick, ha	ard	
	Cannot	t get food out from	n within midrib;		Ignore	too little food in r	midrib	
	Correct	t reference to (tou	ıgh) lignin / xylem (tubes);	MAX [2]	lgnore	phloem		
(iii)	No / les	ss photosynthesis	; (in damaged areas) / AW;		Accept	t valid descriptior	ns e.g. less food	made
	Dries o cells) /		er lost / reduced water trans	ported (to	-	reduced transpir larva takes away	-	to stomata
	Infected	d with fungi / bac	eria / viruses / AW;	MAX [2]	Accept	t disease		

Page 6	Mark Scheme: Teachers' version	Syllabus	Paper	
	IGCSE – May/June 2011	0610	62	

	(c)	(i)	jointed legs or appendages or limbs; [1]	Ignore exoskeleton (as not clear in fig.) / joined legs Reject if answer contains incorrect characteristics e.g. wings
		(ii)	Three marks from: Head, thorax and abdomen / 3 parts to body; 1 pair antennae; 3 pairs legs; 2 pairs wings; MAX [3]	Ignore segments / body segments Ignore compound eyes
			[Total: 20]	
3	(a)		increases / dilates / AW; [1]	
	(b)		Low(er) intensity / less light (enters eye) / to get more light into the eye / AW; Circular muscles (of iris) relax / lengthen; Radial muscles contract / shorten; MAX [2]	Accept room is darker Ignore references to ciliary / longitudinal muscles Ignore descriptions of reactions to full light / photograph A
			[Total: 3]
