## ADDITIONAL MATHEMATICS

## Cambridge International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0606 （Additional Mathematics）in the October／November 2013 examination．

|  | maximum | minimum mark required for grade： |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | mark <br> available | A | C | E |
| Component 11 | 80 | 62 | 27 | 16 |
| Component 12 | 80 | 62 | 27 | 16 |
| Component 13 | 80 | 68 | 31 | 13 |
| Component 21 | 80 | 67 | 28 | 16 |
| Component 22 | 80 | 67 | 28 | 16 |
| Component 23 | 80 | 60 | 33 | 16 |

The threshold（minimum mark）for $B$ is normally set halfway between those for Grades $A$ and $C$ ．The threshold（minimum mark）for $D$ is normally set halfway between those for Grades $C$ and $E$ ．Grade $A^{*}$ does not exist at the level of an individual component．

The thresholds for the syllabus are determined first by adding together the thresholds for the components taken by the candidate．A reduction may be made at the higher grades depending on the correlation of the papers．If the maximum raw marks for the components are not in the weighting／relationship specified in the syllabus，a weighting is applied to arrive at the overall thresholds．The $A^{*}$ threshold is calculated using the difference between $A$ and $B$ as a starting point．

The maximum total mark for this syllabus is 160.
The overall thresholds for the different grades were set as follows．

| Option | Combination of <br> components | A＊$^{*}$ | A | B | C | D | E |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| AX | 11,21 | 150 | 129 | 87 | 55 | 43 | 32 |
| AY | 12,22 | 150 | 129 | 87 | 55 | 43 | 32 |
| AZ | 13,23 | 147 | 128 | 91 | 64 | 46 | 29 |

Grade Thresholds are published for all Cambridge International AS／A Level and Cambridge IGCSE subjects where a corresponding mark scheme is available．
