UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education

www.papaCambridge.com MARK SCHEME for the October/November 2011 question paper

for the guidance of teachers

0654 CO-ORDINATED SCIENCES

0654/21

Paper 2 (Core Theory), maximum raw mark 100

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2		Syllabus Syllabus
	IGCSE – October/November 2011	0654 230
(a) (i)	X retina ; Y optic nerve ;	Syllabus 0654 pupil and lens ; [2]
(ii)	line drawn starting outside the eye, passing through line ends at retina ;	pupil and lens ; [2]
(iii)	label to either cornea, lens or vitreous humour;	[1]
(iv)	as impulse/electrical signal/action potentials ; along nerve/along ${\bf Y}$;	[2]
(b) (i)	red blood cell ;	[1]
(ii)	46 ;	[1]
(iii)	stores information; on making proteins ; ref. to hereditary material ;	[max 2]
		[Total: 11]
(a) (i)	(Y) (no mark) proton number of 6 ;	[1]
(ii)	11 ;	[1]
(b) (i)	contains elements aluminium and oxygen ; proportions/number ratio Al : O is 2:3/owtte ;	[2]
(ii)	ion (electrically) charged/ion protons \neq electrons ;	[2]
(11)		[']
(c) (i)	electrolysis ; positive electrode ;	[2]
(ii)	(contains) ions (which) must be mobile/if solid then i conduct electrical charge/make an electrolyte;	ions cannot move ; [2]
(iii)	\rightarrow aluminium + oxygen ;	[1]
(111)		

4 (a)

all correct for 3 marks, 2 or 3 correct for 2 marks, 1 correct for 1 mark ;;;
