- 4 It is 2050 and the shortage of fossil fuels has become a crisis. To solve this crisis, you must decide which of the following uses of energy should have the highest priority and which should have the lowest.

Business (factories, offices, etc.)  
Domestic (household appliances, lighting, etc.)  
Services (hospitals, schools, etc.)  
Transport (cars, trains, etc.)

In your answer you should:

- state the highest and lowest priorities;
- give reasons for your decisions;
- use relevant examples to support your views;
- show that you have considered different personal, national and global perspectives.
