MARK SCHEME

Maximum Mark: 70

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the March 2018 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Introduction

Most questions are marked holistically using levels of response mark schemes. The marks awarded for an answer are usually based on a judgement of the overall quality of the response, rather than on awarding marks for specific points and accumulating a total mark by adding points.

Inevitably, the mark scheme cannot cover all responses that candidates may make for all of the questions. In some cases, candidates may make very strong responses which the mark scheme has not predicted. These answers should nevertheless be credited according to their quality.

Levels of response

For answers marked by levels of response, the following is intended to describe the quality of the response required (level of skill that should be demonstrated) for the award of marks at different points in the mark range for the question.

In the levels of response mark scheme positive achievement is being rewarded.
For answers marked by levels of response:

- a. Marking grids describe the top of each level.
- b. **To determine the level** – start at the highest level and work down until you reach the level that matches the answer.
- c. **To determine the mark within the level**, consider the following:

| Descriptor | Award mark |
|---|--|
| Consistently meets the criteria for this level | At top of level |
| Meets the criteria but with some slight inconsistency | Above middle and either below top of level or at middle of level (depending on number of marks available) |
| Just enough achievement on balance for this level | Above bottom and either below middle of level or at middle of level (depending on number of marks available) |
| On the borderline of this level and the one below | At bottom of level |

Mark scheme

The questions are based on sources which are available to candidates as an Insert to the examination paper. It is therefore very important to study this material prior to marking to become familiar with the context of the questions.

| 3(a) | <p>Candidates may identify one of the following from Source 4:</p> <ul style="list-style-type: none"> • Most crime is committed by individuals • Some individuals do commit crime due to the risk • Some individuals do commit crime due to the influence of drugs and alcohol. • Countries with low crime rates, like Denmark, usually have high levels of employment with good incomes for all. • In Denmark education and health care are available to everyone/People feel valued by their countries and share wealth/The gap between rich and poor is low • In 2015, the United Nations said, ‘Justice (and sustainable development) for all was a critical ... tool to fight criminal activities, terrorism and violence ... around the world.’ • Other reasonable interpretation <p>1 mark should be awarded for the identification of one of the above.</p> <p><i>Further guidance – not that the only acceptable answers are listed above. However, candidates may use their own words.</i></p> | 1 |
| 3(b) | <p>Candidates may identify one of the following from Source 4:</p> <ul style="list-style-type: none"> • If you commit crime and get caught, it is right that you should be punished. It is as simple as that • You only have yourself to blame (for committing a crime) • If we are going to reduce crime, then we must start with individuals. • We need to educate them (criminals) and give them the strength of character to say, ‘No’, to crime. • Some individuals do commit crime due to the risk, or the influence of drugs and alcohol. But I do not agree that these are the main causes of crime. • To reduce crime, you need to develop the economy of a country, ensure everyone pays fair taxes and spend money to benefit everyone. • People choose to break the law • Other reasonable interpretation <p>1 mark should be awarded for the identification of one of the above.</p> <p><i>Further guidance – not that the only acceptable answers are listed above. | 3(c) | <p>A value judgement is a view or decision about what is right, wrong or important, based a particular set of standards, principles, or values.</p> <p>The following examples are found in Source 4:</p> <ul style="list-style-type: none"> • If you commit crime and get caught, it is right that you should be punished. • They are personally responsible for their own behavior. • ensure everyone pays fair taxes • spend money to benefit everyone • ‘Justice (and sustainable development) for all was a critical ... tool to fight criminal activities, terrorism and violence ... around the world.’ • To reduce crime, you need to develop the economy of a country, ensure everyone pays fair taxes and spend money to benefit everyone. • Other reasonable interpretation <p>Award 1 mark for correctly identifying a value judgement from the list above. However, candidates may use their own words.</p> <p>Award an additional 1 mark for a response that demonstrates some understanding of a value judgement. For example: It is a value judgement that people should be punished if they commit a crime because this it is based on moral principles.</p> <p>Or</p> <p>Award an additional 2 marks for a clear understanding of a value judgement applied accurately to the example identified from Source 4. For example: It is a value judgement that people should be punished if they commit a crime because Ria is taking the view on whether something is right (punishment of criminals) based on her own moral principles.</p> | 3 |

| 3(d) | <p>Indicative content</p> <p>Candidates are expected to evaluate the arguments presented in Source 4 and compare their effectiveness. | 3(d) | <p>The following levels of response should be used to award marks:</p> <p>Level 5 (13–15 marks) Very good response Clear, credible and well supported points about which argument is more convincing. Coherent, structured evaluation of both arguments with clear comparison.</p> <p>The response contains three (or more) developed evaluative points, and may include some undeveloped points.</p> <p>A clear judgement is reached.</p> <p>Level 4 (10–12 marks) Good response Clear, supported points about which argument is more convincing. Evaluation of both arguments, with comparison.</p> <p>The response contains two (or more) developed evaluative points and may include some undeveloped points. A wide range (four or more) of undeveloped but clearly appropriate points may be sufficient to enter this band at the lower level.</p> <p>A judgment is reached.</p> <p>Level 3 (7–9 marks) Reasonable response Reasonable points about which argument is more convincing. Judgements and evaluative points are partially supported or asserted. May only evaluate one argument.</p> <p>One (or more) developed evaluative points, possibly with some undeveloped points; three (or more) undeveloped points may be sufficient to enter this band at the lower level.</p> <p>An attempt is made to give an overall judgement.</p> <p>Level 2 (4–6) Basic response Basic points about which argument is more convincing. There may be only one argument considered in any detail, with little attempt at comparison. Judgements and evaluative points are partially supported and lack clarity/relevance at times.</p> <p>The response contains two (or more) undeveloped points.</p> <p>A basic judgement may be reached.</p> <p>Level 1 (1–3 marks) Limited response Limited and unsupported points about which argument is more convincing. The response considers the arguments briefly and/or tangentially. There is little clarity. Answers at this level may repeat source material with little understanding or simply agree/disagree with the arguments presented.</p> <p>The response may not contain any clear evaluative points.</p> <p>Level 0 (0 marks) No relevant response or creditworthy material.</p> | |
