

MARK SCHEME for the October/November 2013 series

0470 HISTORY

0470/42

Paper 4 (Alternative to Coursework), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Level 2 – Useful/not useful – One is a drawing and the other is from a clergyman so they could both be biased/unreliable. [2]

Level 3 – Choice made on the nature or amount of information given. Must specify what information. [3–5]

Level 4 – Choice made on grounds of reliability.
Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross reference between A and B to show reliability.

Most famous are Saltaire by Sir Titus Salt 1853, Bourneville by Cadbury family in 1879 and Port Sunlight by Lever Brothers in Merseyside 1888. About 20 exist to this day. **[2–4]**
- (iii)** Level 0 – No evidence submitted or response does not address the question. **[0]**
- Level 1 – Single reason. One for the reason, one for the explanation. **[1–2]**
- Level 2 – Multiple reasons. One for each reason, one for the reason explained e.g. Increasingly better health and hygiene; better sanitation; understanding of disease; rush to towns for work meant larger numbers in close proximity; natural causes; lack of effective contraception and contraceptive education etc. **[2–6]**
- (iv)** Level 0 – No evidence submitted or response does not address the question. **[0]**
- Level 1 – Simple assertions.
Yes, Victorian employers always wanted profits. **[1]**
- Level 2 – Explanation of greed OR other factors, single factor given e.g.
- Greed** Employers wanted cheap labour and wanted and needed workers, housing close by; employers were unlikely to spend more than they had to on this; speculators saw the growing demand for housing and provided it as cheaply as possible; this meant poor quality materials and workmanship; the more being built in the smallest possible space meant larger profits etc.
- Other** Workers were not well paid and they needed to be close to work; could not afford the high rents of better houses; this encouraged low quality dwellings; often several families would occupy the same house to reduce costs, so even if the building started sound, overcrowding would quickly make it a slum; local and national government did little for a long time to prevent the growth of slums. **[2]**
- Level 3 – Explanation of greed OR other factors with multiple factors. Allow single factors with multiple reasons.
- OR** Undeveloped suggestions on BOTH sides of the argument Annotate BBB – Balanced but Brief). **[3–5]**
- Level 4 – Answers that offer a balanced argument.
BOTH sides of greed AND other factors must be addressed. **[6–8]**

- Level 1 – Repeats material stated in the source, no inference made. **[1–2]**
- Level 2 – Makes valid inference(s), unsupported from the source, e.g. The Mutiny was caused by people not understanding the religious niceties faced by Hindus; the British had placed the locals in an impossible position etc. **[3–4]**
- Level 3 – Supports valid inferences with reference to the source e.g. The local troops were upset by the pig fat with which they had to make contact before loading; the British were not fully aware of the loss of caste the pig fat would bring etc. **[5–6]**
- (ii)** Level 0 – No evidence submitted or response does not address the question. **[0]**
- Level 1 – Agrees OR disagrees, unsupported from the source. **[1–2]**
- Level 2 – Agrees OR disagrees, supported from the source e.g.
- Yes Deployment of troops to other areas had reduced the number of white officers; the Europeans in the Madras army were disrespectful to their sepoys; officers coming to India were enlisting for personal advancement rather than for altruistic reasons etc.
- No Dalhousie’s reforms were a root cause of dissatisfaction among the locals; the Indians wanted to continue with their traditions rather than benefit from modern, western reforms etc. **[3–5]**
- Level 3 – Agrees AND disagrees, supported from the source. Addresses the issue of ‘How far?’ **[6–7]**
- (iii)** Level 0 – No evidence submitted or response does not address the question. **[0]**
- Level 1 – Useful/not useful – Choice made on the basis that one is more detailed/gives more information, but does not specify what information. **[1]**
- Level 2 – Useful/not useful – One is an old newspaper report and the other is from a book 150 years later so they could both be biased/unreliable. **[2]**
- Level 3 – Choice made on the nature or amount of information given. Must specify what information. **[3–5]**
- Level 4 – Choice made on grounds of reliability.
Discussion of utility must be made on valid evaluation of source(s) in context. Include at this Level answers that cross reference between A and B to show reliability.

- (iv)** Level 0 – No evidence submitted or response does not address the question. **[0]**
- Level 1 – Simple assertions.
Yes, anyone with a brain could see it coming. **[1]**
- Level 2 – Explanation of unavailability OR other outcomes, single factor given e.g.
- Unavoidable There were so many points of disaffection both within the army and outside that some ‘explosion’ was likely to happen; many foretold it; the attitude of the British towards the Indians had deteriorated and this was breeding resentment; westernisation, interference with local customs, was bound to be advanced and all this caused local resentment etc.
- Other Some of the causes, like interference with religious customs, could have been avoided or moderated but the seeds of the rebellion would have remained; no local population would welcome control by an outside force for ever; in the event the majority of the Indian army and population did not revolt etc. **[2]**
- Level 3 – Explanation of unavailability OR other outcomes with multiple factor. Allow single factors with multiple reasons.
- OR Undeveloped suggestions on BOTH sides of the argument (annotate BBB – Balanced but Brief). **[3–5]**
- Level 4 – Answers that offer a balanced argument.
BOTH sides of unavailability AND other outcomes must be addressed. **[6–8]**
