

MARK SCHEME for the October/November 2013 series

0470 HISTORY

0470/12

Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

GENERAL INSTRUCTIONS

Applying the Mark Scheme

- When marking a response the overall criteria to be considered should be - 'How good is this response to this question?'
- The 'Level Descriptor' should be used to decide the level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level. If you cannot resolve the issue please contact your team leader.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- Every effort must be made to read an answer. If it is impossible the matter should be referred to your team leader who should be informed of the script reference.
- If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response. Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level. Marking starts at the bottom of a level and builds-up as the answer is developed.
- Be consistent from script to script.
- Indicate that all answers have been seen. Place a tick at the bottom of the final page of the answer. This shows you have been through every page.

Assessment Objectives

The Assessment Objectives being tested in each part of a question are:

- recall, description

'They could develop markets for their manufactured goods.' [2–3]

Level 3 Explains reasons

(One mark for an explanation, additional mark for full explanation.)

e.g. 'There was a 'scramble' for colonies in Africa because it made good sense economically. The territories of an overseas empire would contribute raw materials and food products, many of which were unobtainable in the home country. In addition, the colonies would provide markets for the home country's manufactured goods, free of import tariff restrictions.'
