## International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0417 (Information and Communication Technology) in the May/June 2013 examination.

	maximum mark available	minimum mark required for grade:			
		A	C	E	F
Component 11	100	57	46	35	30
Component 12	100	65	49	36	29
Component 13	100	66	48	35	29
Component 21	80	64	45	21	15
Component 22	80	63	39	16	12
Component 31	80	60	40	20	15
Component 32	80	61	45	26	21

The threshold (minimum mark) for B is set halfway between those for Grades A and C. The threshold (minimum mark) for D is set halfway between those for Grades C and E. The threshold (minimum mark) for G is set as many marks below the F threshold as the E threshold is above it. Grade A\* does not exist at the level of an individual component.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A\* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is **300**.

The overall thresholds for the different grades were set as follows.
