0417/32

Paper 3 Practical Test B

May/June 2016

MARK SCHEME
Maximum Mark: 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2016 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

## **Task 1 – Evidence Document**

This mark scheme includes the screenshots of the printed evidence that candidates should have included and screen shots from the Evidence Document.

# Task 2 – Spreadsheet

You are going to prepare a spreadsheet for the Goa Elephant Sanctuary to manage employees' wages. Use the most efficient formulae. Display all currency values in Indian rupees to 2 decimal places. For example, 12.00 or INR 12.00

| 1 | rupee | = 100 | paisa |
|---|-------|-------|-------|
|---|-------|-------|-------|

| No | Steps                                                                                                                               |                                                          | Mark |
|----|-------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------|------|
| 1  | Using a suitable software package, load the file 1632sh                                                                             | neet.csv                                                 | [1]  |
|    | Save this file as a spreadsheet with the filename 1632_number and candidate number. For example, 1632_ZZS                           |                                                          |      |
|    | Place an automated filename which includes the file particular.                                                                     | ith, on the left in the                                  |      |
|    | Automated filename with file path placed on left in footer                                                                          | 1 mark                                                   |      |
| 2  | Insert 2 new rows between rows 12 and 13.                                                                                           |                                                          | [1]  |
|    | Correctly inserted rows                                                                                                             | 1 mark                                                   |      |
| 3  | In cell A14 enter the title Goa Elephant Sanctuary                                                                                  |                                                          | [1]  |
|    | Goa Elephant Sanctuary entered in A14                                                                                               | 1 mark                                                   |      |
| 4  | Merge cells A14 to H14.                                                                                                             |                                                          | [3]  |
|    | Format this cell so that the text is centre aligned with a font.                                                                    | black, 24 point, serif                                   |      |
|    | A14 to H14 merged serif centre aligned font black text, 24 point font                                                               | 1 mark<br>1 mark<br>1 mark                               |      |
| 5  | Make the contents of cells in rows 1, 2, 15 and 16 bold                                                                             | and italic.                                              | [1]  |
|    | Rows 1,2 15 and 16 bold and italic                                                                                                  | 1 mark                                                   |      |
| 6  | In cell D17 enter a function to look up, from the external file 1632jobs.csv the job description of the employee.                   |                                                          | [6]  |

# Task 3 – Web Page

You are going to help develop a website for the Goa Elephant Sanctuary to raise awareness of the project. Viewers of the website may have slow internet connection, so efficient markup must be used.

| No |                                                                                                                                                                                                                  | Si                                              | teps            |                                                                                 | Mark |

# Task 4 – Trainee Notes

You are going to produce some notes for an audience of trainees learning to develop web pages for the Goa Elephant Sanctuary.

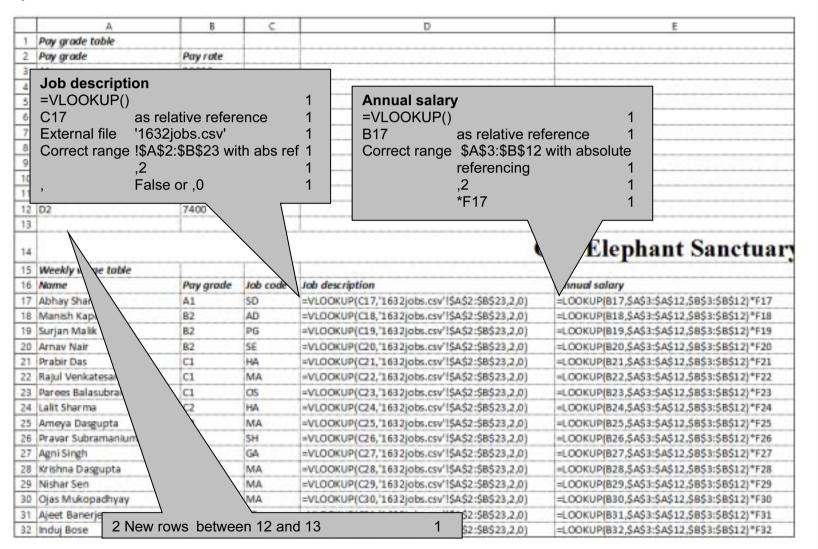

| No | Steps                                                                                                                                                                                                                                                                                                                                                                                 | Mark |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| 27 | Examine the file 1632training.rtf and open it in an appropriate software package.                                                                                                                                                                                                                                                                                                     | [2]  |
|    | Make sure that your name, Centre number and candidate number are placed within these notes.                                                                                                                                                                                                                                                                                           |      |
|    | Replace the text <answer 1="" here=""> with suitable methods of reducing the dimensions of an image for use in a web page.</answer>                                                                                                                                                                                                                                                   |      |
|    | Width and height attributes can be set within the web page. 1 mark The image can be resized within a graphics package. 1 mark                                                                                                                                                                                                                                                         |      |
| 28 | Replace the text <evaluation here=""> with an evaluation of each of these methods for use in the development of the Goa Elephant Sanctuary's website. Include in your evaluation which is the most appropriate method.</evaluation>                                                                                                                                                   | [4]  |
|    | 3 from: Resizing in web page takes longer to load as full image is downloaded. This allows the same image to be used as a full image and a thumbnail. If resized in a graphic package the file size is reduced. Therefore faster to download the web pagewhich is essential given the information "Many of the people who will view the web page have very slow internet connection". |      |
|    | Resizing may change clarity of the image  Max 3 marks                                                                                                                                                                                                                                                                                                                                 |      |
|    | Conclusion: the resizing in the graphics package is appropriate for this task.  1 mark                                                                                                                                                                                                                                                                                                |      |
| 29 | Replace the text <answer 2="" here=""> with the number of bits per channel in a JPEG image.</answer>                                                                                                                                                                                                                                                                                  | [2]  |
|    | 8 1 mark                                                                                                                                                                                                                                                                                                                                                                              |      |
|    | Replace the text <answer 3="" here=""> with the most appropriate file format for still and moving images that the Goa Elephant Sanctuary should use within its website.</answer>                                                                                                                                                                                                      |      |
|    | GIF 1 mark                                                                                                                                                                                                                                                                                                                                                                            |      |
