

	UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS International General Certificate of Secondary Education	
CANDIDATE NAME	913	
CENTRE NUMBER	CANDIDATE NUMBER	1
COMPUTER	STUDIES 0420/01	

Paper 1

May/June 2008 2 hours 30 minutes

Candidates answer on the Question Paper.

No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in. Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working. Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Answer all questions.

No marks will be awarded for using brand names of software packages or hardware.

At the end of the examination, fasten all your work securely together. The number of marks is given in brackets [] at then end of each question paper.

For Examiner's Use	

This document consists of 17 printed pages and 3 blank pages.

14	(a)	Computer systems are widely used now in simulations such as crash testing ne Give two advantages of using simulations rather than carrying out actual testing.	For iner's
		2[2]	-9m
	(b)	Virtual reality is often used in simulations. Describe two man-machine interface devices which allow communication with virtual reality systems.	
		1	
		2 [2]	

- **15** A systems analyst has designed a new computer system for a large company.
 - (a) Name two methods of implementing this new system and describe one advantage using each method. (Do not give the same advantage for Method 1 and Method 2.)

www.papaCambridge.com Method 1: Advantage: Method 2: Advantage: [4]

(b) Before the system is implemented, it needs to be fully tested. One of the tests will be to check that the company does not pay a worker more than \$800 per week.

Use examples of a worker's pay to explain what is meant by normal test data, abnormal test data and extreme test data.

Normal	
Abnormal	
Extreme	
	[3]

- www.papacambridge.com 16 The washroom in a hotel uses lights controlled by a computer system. If the wash unoccupied for 10 minutes, the lights go out automatically. As soon as someone enters lights come on.
 - (a) How can the system determine if anyone is in the washroom?

[2]

(b) Write down a set of instructions which would enable the computer to decide when to turn out the lights.

..... [3]

(c) Give one advantage of this automatic system.

[1]

		45	
17	7 An expert system is to be written to identify	15	°C.
.,	(a) Describe how the expert system would	ld be created.	all
			[3]
	(b) How would a user be confident that the	ne output from this expert system was correct?	
			 [1]
	(c) Give one advantage of using an expe	ert system to identify chemical compounds.	
			[1]

18 An entertainment company keeps monthly records on a spreadsheet of all its organized rock music events. The information for May 2008 is shown below.

18	An entertainment c rock music events.	ompany kee The informat	eps_monthly ion for May 2	16 records on 2008 is show	a spreadshe n below.	eet of all its	MM. DahaCa	For iner's
	Α	В	С	D	E	F	G	30
1	Event	No. of seats	No. seats sold	Seat price (\$)	Total money taken (\$)	Cost of event (\$)	Profit or Loss	.con
2	The Bugs	4000	1700	45	76500	85000	Loss	
3	Static Rocks	3000	3000	50	150000	100000	Profit	
4	The Cold Apes	4000	2150	35	75250	90000	Loss
