Cambridge International General Certificate of Secondary Education

CANDIDATE NAME					
CENTRE NUMBER			CANDIDATE NUMBER		

## INFORMATION AND COMMUNICATION TECHNOLOGY

0417/12

Paper 1 October/November 2015

2 hours

Candidates answer on the Question Paper.

No Additional Materials are required.

### READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use an HB pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, glue or correction fluid.

DO **NOT** WRITE IN ANY BARCODES.

No marks will be awarded for using brand names of software packages or hardware.

Answer all questions.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [ ] at the end of each question or part question.

The syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

This document consists of 13 printed pages and 3 blank pages.

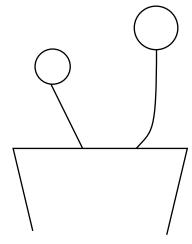

1 These printouts show a document before and after it was finalised.

Write down six editing techniques which have been used on the image and the text.

This is a flower pot with two flowers. One is growing straight up and the other is growing at an angle.

**2** For each use, tick the **most** appropriate type of application software.

Use	Modelling ✓	Database ✓	Word processing ✓
Writing a letter			
Flight simulation			
Storing student records in a school			
Producing a business card			

[4]

3 Tick the type of computer which would be **most** appropriate for each use of ICT.

Use	Mainframe √	Laptop √	Desktop ✓
Entering data from a Biology survey while out of school			
Massive transactions which need the use of many CPUs			
Students who need to transport their computer from home to use in school			
Personal use with better performance at lower cost			

[4]

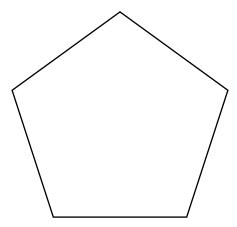

4 Tick the **most** appropriate method of implementing a new system for each company.

Company	Parallel running	Pilot running	Direct changeover
A company with several branches wishes to test the new system in one branch only.			
A small company that can only afford to spend a small amount of money on implementing the new system.			
If the whole system fails, the company wishes to return to the original existing system.			
A company that wants the quickest method of implementation.
