Paper 1

May/June 2011

2 hours 30 minutes

Candidates answer on the Question Paper.

No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO **NOT** WRITE IN ANY BARCODES.

Answer all questions.

No marks will be awarded for using brand names of software packages or hardware.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

For Examiner's Use

This document consists of 24 printed pages.

3 A worker at a company has to go through a logon procedure to gain access to her co. system.

www.Papa Cambridge.com (a) The first thing she has to do is type in a user name and a password. Why is this done? **(b)** The *password* is typed in twice. Why is this done? A menu then appears on her screen. She chooses to connect to the Internet. (c) Describe two ways her computer system is protected against loss or corruption of files once the computer system is connected to the Internet. 1 _____ 2

www.PapaCambridge.com (d) The worker leaves her computer system for a 10-minute break. (i) From a health and safety aspect, why does she need to take a regular break? (ii) Apart from switching off her machine, how could she ensure her computer system was secure whilst taking her regular break?

The following diagram shows a typical expert system.

(a) Name the missing labels W to Z using the following list of possible options.

		24		Par l
17	Daniel lives in Italy and travels to M are:	exico, India and N	ew Zealand. The times diff	For viner's
	<u>Country</u>	<u>Hours</u>	<u>Minutes</u>	135
	Mexico	-7	0	200
	India	+4	+30	-02
	New Zealand	+11	0	

Country	<u>Hours</u>	<u>Minutes</u>
Mexico	-7	0
India	+4	+30
New Zealand	+11	0

Thus, if it is 10:15 in Italy it will be 14:45 in India.

- (a) Write an algorithm, using pseudocode or otherwise, which:
 - Inputs the name of the country
 - Inputs the time in Italy in hours (H) and minutes (M)
 - Calculates the time in the country input using the data from the table
 - Outputs the country and the time in hours and minutes

	[4]
(b)	Describe, with examples, two sets of test data you would use to test your algorithm.
