

CAMBRIDGE INTERNATIONAL EXAMINATIONS

General Certificate of Education Advanced Subsidiary and Advanced Level

MARK SCHEME FOR the November 2002 question papers

9698 PSYCHOLOGY

9698/01	Paper 1 (Core Studies 1), maximum raw mark 100
9698/02	Paper 2 (Core Studies 2), maximum raw mark 50
9698/03	Paper 3 (Specialist Choices), maximum raw mark 70

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2002 question papers for most IGCSE, GCE Advanced Subsidiary (AS) and GCE Advanced (A) Level syllabuses.

NOVEMBER 2002

GCE ADVANCED SUBSIDIARY AND ADVANCED LEVEL

MARK SCHEME
MAXIMUM MARK : 100
SYLLABUS/COMPONENT : 9698/01
PSYCHOLOGY

Section A

Section B

Question 16

Q	Description	marks
Q16a	Outline the main findings of your chosen study. Raine, Buchsbaum and La Casse (brain scanning) Schachter & Singer (emotion) Piliavin, Rodin & Piliavin (subway samaritans)	
	No answer or incorrect answer.	0
	Anecdotal evidence, general statements, minimal detail, minimal focus.	1-3
	Attempt to outline some of main findings though with omission of detail or lack of clarity (comment with some comprehension).	4-6
	Main findings identified and described in good detail. Outline is clear, focused and well expressed. Good selection of findings.	7-10
	max mark	10
Q16b	What generalisations can be made about human behaviour and experience from the findings of your chosen study.	
	No answer or incorrect answer.	0
	Anecdotal description of generalisations, brief detail, minimal focus.	1-3
	Appropriate generalisations identified, description shows some understanding. Some detail and expansion of generalisations.	4-6
	Appropriate generalisations identified. Description is clear, has good understanding, is focused and well expressed. Good detail each generalisation explained fully.	7-10
	max mark	10
Q16c	Using your chosen study as an example, what are the advantages and disadvantages of making generalisations about human behaviour and experience.	
	No answer or incorrect answer.	0
	Anecdotal description, brief detail, minimal focus. Very limited range. Description may be inaccurate, incomplete or muddled.	1-3
	Advantages or disadvantages only which are focused on question. For 4 marks as for 6-7 mark band. For 5 marks as for 8-10 mark band.	4-5
	Several advantages and disadvantages which are focused on question. Description is good with reasonable understanding. Some detail and expansion of key features.	6-7
	Balance of advantages and disadvantages which are focused on question. Description is detailed with good understanding and clear expression. The arguments are well considered and reflect understanding which extends beyond the specific study.	8-10
	max mark	10
Q16d	Suggest changes to your chosen study that would allow generalisations about human behaviour and experience to be made.	
	No answer or incorrect answer.	0
	Anecdotal suggestion, brief detail, minimal reference to question. Description may be inaccurate, incomplete or muddled.	1-3
	Some appropriate suggestions which are focused on question. Description shows some understanding. Some detail and expansion of aspects allowing generalisation.	4-6
	Range of appropriate suggestions which are focused on question. Description is detailed with good understanding and clear expression. The changes are well considered and reflect understanding of the area in question.	7-10
	max mark	10

Question 17

Q	Description	marks
Q17a	Outline the main findings of your chosen study. Bandura, Ross and Ross (aggression) Freud (Little Hans) Rosenhan (sane in insane places)	
	No answer or incorrect answer.	0
	Anecdotal evidence, general statements, minimal detail, minimal focus.	1-3
	Attempt to outline some of main findings though with omission of detail or lack of clarity (comment with some comprehension).	4-6
	Main findings identified and described in good detail. Outline is clear, focused and well expressed. Good selection of findings.	7-10
	max mark	10
Q17b	Describe the procedure of your chosen study and say how informed consent was used.	
	No answer or incorrect answer.	0
	Anecdotal description of consent, brief detail, minimal focus.	1-3
	Appropriate aspect identified, description shows some understanding. Some detail and expansion of consent.	4-6
	Appropriate aspect identified. Description is clear, has good understanding, is focused and well expressed. Good detail each aspect explained fully.	7-10
max mark	10	
Q17c	Using your chosen study as an example, what are the advantages and disadvantages of gaining informed consent in psychological studies.	
	No answer or incorrect answer.	0
	Anecdotal description, brief detail, minimal focus. Very limited range. Description may be inaccurate, incomplete or muddled.	1-3
	Advantages or disadvantages only which are focused on question. For 4 marks as for 6-7 mark band. For 5 marks as for 8-10 mark band.	4-5
	Several advantages and disadvantages which are focused on question. Description is good with reasonable understanding. Some detail and expansion of key features.	6-7
	Balance of advantages and disadvantages which are focused on question. Description is detailed with good understanding and clear expression. The arguments are well considered and reflect understanding which extends beyond the specific study.	8-10
max mark	10	
Q17d	Suggest changes to your chosen study that would give participants informed consent and say what effect, if any, this would have on the results.	
	No answer or incorrect answer.	0
	Anecdotal suggestion, brief detail, minimal reference to question. Description may be inaccurate, incomplete or muddled.	1-3
	Some appropriate suggestions which are focused on question. Description shows some understanding. Some detail and expansion of aspects, with consideration of effect on results.	4-6
	Range of appropriate suggestions which are focused on question. Description is detailed with good understanding and clear expression. The changes are well considered and reflect understanding of the area in question. Consideration of effect on results of appropriate.	7-10
max mark	10
