## MARK SCHEME for the June 2005 question paper

## 9706 ACCOUNTING

## 9706/02

Paper 2 (Structured Questions), maximum raw mark 90

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initially instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published Report on the Examination.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

- CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the June 2005 question papers for most IGCSE and GCE Advanced Level syllabuses.

Grade thresholds for Syllabus 9706 (Accounting) in the June 2005 examination.

|  | maximum | minimum mark required for grade: |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  | mark <br> available | A | B | E |  |
| Component 2 | 90 | 66 | 59 | 38 |  |

The thresholds (minimum marks) for Grades $C$ and $D$ are normally set by dividing the mark range between the $B$ and the $E$ thresholds into three. For example, if the difference between the $B$ and the $E$ threshold is 24 marks, the $C$ threshold is set 8 marks below the $B$ threshold and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, then the threshold is normally rounded down.

## GCE A/AS LEVEL

| MARK SCHEME |
| :---: |
| MAXIMUM MARK: 90 |
| SYLLABUS/COMPONENT: 9706/02 |
| ACCOUNTING |
| Paper 2 (Structured Questions) |

| Page 1 | Mark Scheme | Syllabus | Paper |
| :---: | :---: | :---: | :---: |
|  | A/AS - June 2005 | 9706 | 2 |

1 (a) Option 1 - Borrow from bank

|  | $\$$ |  |
| :--- | :--- | ---: |
| Increased profit | 27000 | $\mathbf{1}$ |
| less manager's salary | $\underline{15000}$ | $\mathbf{1}$ |
| less bank interest | $\frac{9000}{}$ | $\mathbf{1}$ |
| Net increase | $\underline{3000}$ i.e. $\$ 1000$ each |  |

Each now receives $\$ 22500+\$ 1000=\$ 23500$ as new profit

$$
\begin{array}{ll}
1 & (3[1 \text { each }])
\end{array}
$$

Alternate method

| New profit $67500+27000$ | 94500 | 2 (1 each) |
| :---: | :---: | :---: |
| less manager's salary | 15000 | 1 |
|  | 79500 |  |
| less bank interest | 9000 |  |
|  | 70500 | 1of ignore aliens |
|  | $\underline{\underline{23500}}$ each | 3 (1 each) |

(b) Option 2 - Bring in partner

Profit $=\$ 67500+\$ 27000 \quad 94500.00$
less interest on capital at $7.5 \%$

| 硣 | \$ |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Ringo | 5625.00 |  | marks for individual figures | 1 |
| John | 4500.00 |  |  | 1 |
| Paul | 3375.00 |  |  | 1 |
| Georgina | 3375.00 | $\frac{16875.00}{77625.00}$ |  | 1 |
| Profit share |  |  |  |  |
| Ringo allow | 23287.50 |  |  | 1+1of |
| John rounding | 23287.50 |  | ignore | 1+1of |
| Paul | 15525.00 |  | aliens | 1+1of |
| Georgina | 15525.50 | $\underline{77625.00}$ |  | 1+1of |
| Ringo gets | 28912.50 |  |  | 1 of |
| John now gets | 27787.50 |  | ignore | 1 of |
| Paul now gets | 18900.00 |  | aliens | 1 of |
| Georgina now gets | 18900.00 |  |  | 1 of |

Profit share $=2$ each for correct figure, 1 each if wrong but in correct proportion otherwise 0 .
(c) Borrowing from bank is better for two partners and as bank interest decreases over the years when loan is being paid back all three will gain more, though John will never be as well off as he would be under option 2. Own figure applies up to a maximum of (4). If reversed, bringing in new partner is worse, as total profit is less and even with new profit-sharing ratios each partner gets less.
[Total: 30]

| :---: | :---: | :---: | :---: |
|  | A/AS - June 2005 | 9706 | 2 |

2 (a) James Defirst Ltd's Balance Sheet at 31 May 2005

| Fixed assets | \$ | \$ | \$ |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Cost | Depreciation | Net Book Value |  |
| Goodwill |  |  | 15000 | 1 |
| Motor vehicles | 60000 | 47040 | 12960 | 3 (1 each) |
| Equipment | 30000 | 16200 | 13800 | 3 (1 each) |
|  | $\underline{\underline{90000}}$ | $\underline{63240}$ | 41760 | 1of |
| Current assets |  |  |  |  |
| Stock 1 | 48250 |  |  |  |
| Debtors 78000 |  |  |  |  |
| less provision for doubtful debts $\underline{39002}$ | 74100 | (0 if not | 74 100) |  |
| Bank 1 | 13125 | 135475 |  |  |
| Amounts due within 1 year |  |  |  |  |
| Creditors | 30075 |  |  |  |
| Proposed dividend | 9000 | 39075 |  |  |
| Net current assets |  |  | 96400 |  |
|  |  |  | $\underline{\underline{138160}}$ |  |
| Capital and reserves |  |  |  |  |
| Authorised capital |  |  |  |  |
| 100000 ordinary shares of \$1 each |  |  | $\underline{\underline{100} 000}$ |  |
| Issued capital |  |  |  |  |
| 75000 ordinary shares of \$1 each fully paid |  |  | 75000 | 1 |
| Share premium |  | 11250 |  | 1 |
| General reserve |  | 15000 |  | 1 |
| Retained profit |  | 36910 | 63160 | 1of no aliens |
|  |  |  | 138160 |  |
| Lose this mark if any headings missing |  | vertical p | presentation | 1 |
|  |  | if totals a | agree | 1 |

To acquire mark for Ordinary shares, must indicate number of shares.
All marks are figure marks unless otherwise stated.
(b) Working capital ration $=135$ 475/39 075
3.47 :1

Liquid ration $\quad=87$ 225/39 075
2.23 :1

Award 1 each max if :1 omitted
Full marks for at least one or more than two decimal places
No marks if reversed, e.g. 1:0.45. No marks for formula alone.
(c) (i) In a partnership, the appropriation account shows how the net profit of the business is split among the partners, taking into account interest on capital, interest on drawings, and salaries. There is no profit retained at the year end.
(ii) In a limited company, the appropriation account shows how the net profit of the business is distributed among the shareholders but also into reserves such as general reserve and retained profits. Frequently profits are brought forward from last year and carried forward to next year.

Maximum 3 for each section, to maximum
