**Cambridge International Advanced Level** 

## MARK SCHEME for the October/November 2014 series

## 9706 ACCOUNTING

9706/42

Paper 4 (Problem Solving – Supplement), maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

## <u>Workings</u>

Rights issue  $(25\,000 + 5000)$  (1) / 5 (1) × \$1 (1) = \$6\,000\,000 (1) Revaluation 7 500 000 - 6 000 000 (1) = \$1 500 000 (1) Interim dividend (25 000 000 + (1) + 5 000 000 (1) + 6 000 000 (1) × 0.03 (1) = \$1 080 000 (1) Final dividend (25 000 000 × 0.04 = \$1 000 000 (1) (25 000 00

- (c) The final dividend is not a liability (1) at the statement of financial position date. (1) It is therefore disclosed as a note to the accounts. (1) Non adjusting event (1) treated in next financial year (1)
- (d) A bonus issue would result in 1 share for each 5 held being given to the existing shareholders. (1)
   This is a bookkeeping exercise and a reserve is debited (1) and no cash is raised. (1)
   Therefore, the expansion plans of Aston plc would not be assisted. (1)
